Title Index to Volume 9

S1 denotes Volume 9 Supplement 1

Attitudes of Czech and Slovak gynecologists towards family planning 351
The clinical performance of the Multiload IUD. I. The influence of the endometrial cavity length 285
The clinical performance of the Multiload IUD. II. The influence of age 291
Clotting factors after emergency contraception 75
Contraception in Germany: a review 105
Contraception in Spain 363
Contraceptive practice and attitudes in former Soviet women 13
Effects of the antiestrogen anordiol on ovulation and endometrial histology in the rat 257
Evaluation of hemostatic function following Norplant implant removal 49
Evaluation of hemostatic function following Norplant-2 rods removal 241
Evaluation of liver function and lipid metabolism following Norplant implant removal 41
Evaluation of liver function and lipid metabolism following Norplant-2 rods removal 233
Evaluation of risk of thrombosis during use of low-dose ethinylestradiol–desogestrel oral contraceptive 195
Evaluation of the effect of contraceptive prices on demand in eight Western European countries 1
Extraovular PGE_2 and oxytocin-implicated uterine rupture during midtrimester termination of pregnancy 331
Factors associated with the choice of Norplant by women attending subsidized clinics in the US 161
Factors influencing attitude about Norplant contraceptive subdermal implant 215
Family planning in Italy 153
Family planning in Russia: experiences and attitudes of gynecologists 93
Health benefits of oral contraceptives [in Spanish] S1: 13
The importance of training and supervision in quality of care 175
Inhibition of ovulation by a triphasic gestodene containing oral contraceptive 187
Intracervical anchoring: a new approach to intrauterine contraception 65
Introductory trial of the once-a-month injectable contraceptive, Cyclofem, in Indonesia 33
IUD (CuT380A) insertion following induced first trimester abortion 251
Metabolic effects of oral contraceptives [in Spanish] S1: 49
A multicenter clinical trial in Nigeria with a low-dose oral contraceptive, Marvelon 25
A multicenter study of the clinical performance of the Ortho Gyne-T380 Slimline intrauterine device in routine use in general practice and family planning clinics 59
A new diagnostic aid for natural family planning 335
The new intrauterine contraceptive devices: safe and effective 83
Nontraumatic tubal occlusion as a new technique for female voluntary sterilization 303
Oral contraception in the former Czech and Slovak Federal Republic: attitudes and use 141
Oral contraceptives and cancer [in Spanish] S1: 31
Oral contraceptives and cardiovascular disease [in Spanish] S1: 19
Oral contraceptives and women over 35 [in Spanish] S1: 59
Oral contraceptives in Latin America [in Spanish] S1: 3
Ovarian function during hormonal replacement therapy in perimenopausal women 71
Overall assessment of oral contraception [in Spanish] S1: 65
Pelvic inflammatory disease and intrauterine devices: prophylactic antibiotics to reduce febrile complications 299
Pharmacokinetics and protein binding of 3-ketodesogestrel and gestodene in the serum of women during 6 cycles of treatment with two low dose oral contraceptives 319
The pill: perceptions and usage among Nigerian students 341
Planned condom use by women with Norplant implants 227
Prospective European multi-center study of natural family planning (1989–1992) – interim results 269
Quality of care in family planning in Latin America 117
Quality of care in family planning: clients' rights and providers' needs 129
Some methodological considerations of a progestin-only oral contraceptive study from a programmatic perspective 205
Tubal sterilization by laparoscopy and minilaparotomy 313
Vasectomy and prostate cancer 181
